

Co-funded by  
the European Union

Tero Monoprospi IKE was co-financed by the European Union and National Resources under the "Central Macedonia" Regional Program of the NSRF 2021-2027, specifically within the "Investment Plans for Innovation" Action.

The project "Development and operation of technological applications for the promotion of cycling tourism in the Region of Central Macedonia- GoBike" aims to develop a platform and smart devices application focused on mountain biking tourism in selected areas of the Region of Central Macedonia.

The total project budget is 367.050,00€ and public expenditure is 328.290,00€

**Through its participation in the Action, the company achieved:**

- ✓ Development of technological tools featuring mapped mountain biking routes and points of touristic interest
- ✓ Acquired significant technical expertise
- ✓ Network and collaboration with business related to the project's activities and scope
